Pushpa Mahto
Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer adept at utilizing HTML, CSS, JavaScript, Node.js, and React.js to create scalable web applications. Skilled in RESTful API design, MongoDB queries, and collaborative workflows using Git. Quickly adapts to new technologies and I focus on writing clean, efficient code and continuously strive to improve my skills. I thrive in challenging environments and enjoy finding innovative solutions to complex problems.

PROJECTS

1. youtube clone website | ⊕ | ⊙
HTML5 | CSS3 | JavaScript | React | RESTful APIs | Git | Responsive Web Design
- Developed a responsive web application using React and RESTful APIs to mimic YouTube's functionalities.
- Implemented video playback, filtering, and sorting features for an enhanced user experience.
- Collaborated on API integration for seamless data retrieval and presenting video contents dynamically.

2. BigBasket Website | ⊕ | ⊙
React | JavaScript | Git | HTML5 | CSS3 | Node.js | Responsive Web Design | Redux
- Cloned the BigBasket website using React and Node.js, implementing key features such as sign in/out, product filtering, and sorting.
- Used Redux for efficient state management and ensured responsiveness across various devices.
- Integrated a payment page and added functionalities like add to cart and remove from cart, enhancing the e-commerce experience.

3. Bewakoof Clone Website | ⊕ | ⊙
HTML5 | CSS3 | JavaScript | Git | Responsive Web Design
- Designed and implemented a user-friendly interface using HTML5, CSS3, and JavaScript to enhance user engagement.
- Developed responsive web pages to ensure optimal performance across various devices and screen sizes.
- Integrated Login/SignUp functionalities to secure user data and improve user experience.
- Implemented Wishlist and SlideCard features to offer personalized and dynamic content to users.
- Utilized Git for version control to manage the development workflow and maintain code quality.
